At Core Tech we recognize that everything we build will be used by many generations to come. From roads, bridges, schools, hotels, apartments, and homes, we make sure we never waiver on quality and the strength of our foundations.

The future of Guam is with our children and the structures we build today will aid in their success as they grow.

Core Tech International is a proud Platinum Sponsor of Junior Achievement Guam.

13 January 2017

Hafa Adai,

Congratulations all!

Today is the day we recognize those individuals and teams who impressed the judges and the teams they believe will represent Guam best at COY in Beijing, China in March. I’d like to recognize you for a few things first.

**Participation** - If you don’t step up and seize the opportunity they’ll pass you by and someone else will reap the rewards. So thank you for allowing Junior Achievement to have an impact on you and your future.

**Learning** - I believe the best way to learn is by doing. You have all learned what it takes to start a business, raise capital, create products and services, take those products and services to the market, overcome the many day to day challenges a business faces especially when it comes to people, and be financially responsible to your investors. Keep learning throughout your life!

**People** - You learned people can be your greatest asset or your worst failure. Characteristics like trust, communication, commitment, and accountability are what builds a high performing team. This is why people are paid for the value (performance) they bring not just for showing up. Ask yourself in any give moment, “How am I showing up?”.

**Growth** - If you’re not growing you’re what? Many of you stepped out of your comfort zone and learned that fear has no place when it comes to becoming something more than when you started. Life will provide you with many challenges and it’s how you meet and overcome them that will make all the difference. Each challenge, mistake, or failure is a lesson learned, the trick is not to repeat it!

**Ask** - Never be afraid to ask for help or feedback and make sure to utilize the resources available to you. Nobody has all the answers and not all advise is good. I’m always impressed with the improvement from the first to the second trade fair, and again at the Company of the Year competition. Wow.

**Completion** - Everyone who participates in the Company Program has a better understanding of the amount of time and energy it takes to finish. The program doesn’t end here today. Hopefully you’ll be returning next year with skills and knowledge you didn’t have when you started this year. For those seniors, we hope we inspired you and gave you an experience that helped you decide what you want to do in your future.

**Celebration** - Congratulations, you’re here at the awards banquet. Enjoy your own personal success and the success of your team. There is always, always, always something to be grateful for so even though you don’t take home a trophy. Celebrate what you’re taking away from this experience and what you would do differently the next time the opportunity knocks.

Congratulations once again for a job well done!

Meg Tyquiengco
Chairperson, Junior Achievement of Guam
GIVE THEM THE POWER TO CHANGE THEIR WORLD.

CONGRATULATIONS TO ALL STUDENT COMPANIES!
